Re: B&A Corporate Advisors adds a new member to its Advisory Board

London, Ontario: Mergers and Acquisitions advisory firm, B&A Corporate Advisors, today announced the addition of Steve Schram to its Advisory Board.

Schram has agreed to assist the company and its founder, Eric Bosveld, with its vision of establishing itself as the leading independent, Agri-Food M&A Advisory firm in the lower middle market.

“Steve brings a wealth of experience in the animal health and nutrition space, which is a key focus area for our M&A practice”, said Bosveld. “He also has been involved in several M&A transactions, both as an acquirer and a seller, which gives him a healthy perspective on the nuances involved in successfully closing an M&A transaction.”

“I first met Eric years ago, when I was leading AgriLabs, and I welcome the opportunity to work with him to provide M&A services in the dynamic and rapidly changing animal health sector,” said Schram. “B&A’s approach to building a trusting relationship with private business owners resonated with me as I was contemplating how to bring value to my network as many consider their options regarding transitioning from the business.”

In addition to his of years or experience at the helm of AgriLabs, Schram has held leadership roles at Norbrook Labs, Syntex Animal Health and worked on numerous animal health-related consulting engagements.

Schram is currently the CEO at Phoreus Biotech, a start-up focused of novel delivery of mRNA vaccines and other therapeutics.

About B&A Corporate Advisors: B&A Corporate Advisors is a Mergers and Acquisitions Advisory firm focused exclusively on the Canadian and U.S. food and agribusiness industries in the lower middle market. While we are small and nimble, we pride ourselves on producing outsized results for our clients, through a blend of industry experience, best practices know-how, negotiating skills and strategic outsourcing of back-office support services to keep our services lean and cost-effective.
